*FOR NEWBORN DAIRY & BEEF CALVES*

**PRODUCT DESCRIPTION:**

The industry's strongest, most complete colostrum replacer. A vital component of the Protocol Calf Program which is a proven and highly acclaimed All-Natural approach to successfully rearing calves.

**KEY BENEFITS:**

Designed to completely replace maternal colostrum for newborn dairy or beef calves or may be used in cases where maternal colostrum is unavailable or is of unknown quality and for all calves born to 1<sup>st</sup> calf heifers.

- Helps prevent tissue oxidation
- Highly effective Immune protection

**DIRECTIONS FOR USE:**

Mix one packet (500 grams) with two quarts of clean, warm water (115°F) to provide a total of 150 grams of globulin proteins. Administer by bottle, nipple pail, or esophageal feeder immediately after birth. Ensure that the treated calf consumes the entire contents.

**STORAGE RECOMMENDATION:**

Store in a cool (no higher than room temperature 72°F or 23°C), dry location and out of direct sunlight.

**AVAILABLE SIZES:**

- 500 gram packet
- 55 lb box
