FOR ALL CLASSES OF HORSES

PRODUCT DESCRIPTION:

An oral dose of selected host-specific lactic bacteria for gastrointestinal supplementation in horses. A source of live, natural occurring, host-specific microorganisms for Equine subjected to changing environment, training, working, or transporting.

KEY BENEFITS:

- Appetite enhancer
- Highly effective immune stimulation
- Helps prevent tissue oxidation
- Replenishes/re-establishing desirable microflora

DIRECTIONS FOR USE:

The most beneficial times to use Bio-Pro Equine Paste are:

FOALS: 10cc of Bio-Pro Equine Paste at birth, at weaning, and any time bacterial replenishment would be needed (such as follow-up after periods of stress or use of strong oral antibiotics).

MATURE HORSES: 10cc of Bio-Pro Equine Paste any time bacterial replenishment would be needed (such as follow-up after periods of stress, foaling, breeding season, hauling or use of strong oral antibiotics).

STORAGE RECOMMENDATION:

Store in a cool dry location.

AVAILABLE SIZES:

60cc and 300cc tubes
