PRIME RIB[®]

FOR ALL CLASSES OF LIVESTOCK

PRODUCT DESCRIPTION:

To be used as a source of fiber for adding depth and body to all classes of livestock. Designed to serve as a source of highly digestible fiber for adding depth and body to all classes of livestock.

KEY BENEFITS:

A nutritional product designed to increase the capacity of the stomach or rumen.

- Maintains gut fill and provides a more open, expanded look
- Very useful when intake is restricted to limit weight gain
- Minimizes that hard look associated with a low feed intake

Prime Rib vs. beet pulp and other products

- Expands much more up to 400% of the original surface area
- Expands more rapidly, up to twice as fast
- Retains more water
- Much better economical alternative

DIRECTIONS FOR USE:

SHOW ANIMALS: Begin feeding to show animals 45-60 days prior to first show, at the following rates.

Cattle:

2-5 lbs per head daily

Swine, sheep, and goats:

½ - 2 lbs per head daily

*Best results will be achieved if amounts are split in 2 separate, daily feedings.

*Higher rates can be fed on show day to produce the necessary fill, depth and rib you need for your individual animal.

STORAGE RECOMMENDATION:

Store in a cool, dry location.

AVAILABLE SIZES:

40 lb bag (18.2 kg)
