FOR ALL CLASSES OF SWINE

PRODUCT DESCRIPTION:

An oral dose of selected host-specific lactic bacteria for gastrointestinal supplementation. A source of live, naturally occurring, host-specific microorganisms for Swine subjected to changing environment, training, working, or transporting.

KEY BENEFITS:

- Appetite enhancer
- Provides highly effective immune stimulation
- Helps prevent tissue oxidation
- Replenishing supplement

DIRECTIONS FOR USE:

The most beneficial times to use Bio-Pro Swine Paste are:

BABY PIGS: 3cc of Bio-Pro Swine Paste at birth, at weaning, and any time bacterial replenishment would be needed (such as follow-up after periods of stress or use of strong oral antibiotics). This should be followed by daily supplementation of Bio-Pro Swine Powder in the drinking water.

PIGS AND SOWS: 3-5cc of Bio-Pro Swine Paste any time bacterial replenishment would be needed (such as follow-up after periods of stress, moving of barns, farrowing, or use of strong oral antibiotics).

STORAGE RECOMMENDATION:

Store in a cool, dry location.

AVAILABLE SIZES:

60cc and 300cc tubes
