Flow-Pro[®]AC

DRY ANTI-CAKING AGENT

PRODUCT DESCRIPTION:

All-Natural dry anti-caking agent with excellent purity, stability and performance.

KEY BENEFITS:

- OMRI listed for Organic use
- Contributes to high pellet quality and longer shelf life of feeds
- Completely stable at high temperatures
- Safe, affordable and nutritionally beneficial
- Easily mixed with feeds

DIRECTIONS FOR USE:

Use as an anti-caking agent in the manufacturing of animal feeds or individual feed ingredients to reduce caking and enhance flowability of these materials during processing and storage.

Add Flow-Pro AC at the rate of 0.15-0.30% (3-6 lbs. per ton) of finished feed.

STORAGE RECOMMENDATION:

Store in a dry place. Protect from excessive moisture.

AVAILABLE SIZES:

55lb bag (25kg)

2,200 lb. tote (1,000 kg)
