ORGANIC FORM OF OUR ALL-NATURAL, ONE-OF-A-KIND FEED ADDITIVE

PRODUCT DESCRIPTION:

Matrix-O is the organic form of our Matrix feed additive for ruminants. Matrix-O is the only feed additive available to the organic food animal industry today which addresses the animal's entire digestive and circulatory systems through organic and natural means.

OMRI Listed for Organic Use

KEY BENEFITS:

Matrix aids in nurturing natural body processes which may help support optimal productivity, immunity and overall health.

In Dairy Cattle

- Increases nutrient bioavailability at the cellular level to help maximize the cow's genetic potential for milk yield, milk composition and production efficiency.

In Beef Cattle

- Increases nutrient bioavailability at the cellular level to help attain the genetic potential for carcass yield, marbling and ribeye area.

In Wildlife

- Increases nutrient bioavailability at the cellular level to help maximize the genetic potential for antler growth, milk yield and production efficiency.

DIRECTIONS FOR USE:

The most beneficial times to use Matrix-O are:

BABY CALVES: Daily supplementation in the feed (1.5g per head daily) combined with the use of Bio-Pro Bovine Paste on the first day of life and again at weaning.

DAIRY COWS: Daily supplementation in the feed (3 to 6 per head daily) during the close-up dry cow period and throughout

lactation. Daily supplementation is especially beneficial in high producing cows and in adverse environmental conditions.

BEEF CATTLE: Daily supplementation in the feed (1.5 to 3g per head daily) while pre-conditioning cattle for the feedlot and throughout the feeding period. Daily supplementation may be especially beneficial in adverse environmental conditions, in feedlot finishing programs, and in cattle consuming endophyte-infected fescue forage.

STORAGE RECOMMENDATION:

Store in a cool, dry place.

AVAILABLE SIZES:

50lb bag

10lb Bucket
